Interview Task

Front-End Developer

Task Brief

Introduction

If you are reading this document, it's because you have moved forward onto the next stage of our search for a new frontend developer here at Social Care Wales – congratulations!

To make things more interesting and exciting, we want to challenge you to demonstrate your wide range of skills and competencies. If you have any questions about the brief, please do not hesitate to contact our team directly via e-mail.

The task

Develop a standalone page based on the provided design

The new front-end should:

- Be responsive (adapt to different screen sizes)
- Be clean, semantic HTML code
- Be faithful to the design

The Deliverable

Commit all your work into a code repository that we can access. Name the repository as yourfullname plus Front-end, e.g. *jackjones_frontend* and send us a link to that repo along with anything else you feel is relevant to the task. The repo should also contain a short README explaining your approach, assumptions, and tech choices.

Enjoy and have fun!

Password: Frontend-SCW25

The typeface in use is Gibson (Book, Regular, Medium, SemiBold) - if Gibson is not available, you may use Arial as an approved digital alternative.

The form is presentational only, no submission or validation is required. We are primarily assessing your HTML, CSS, responsiveness, and attention to detail.
